COURSES

iMovie
Create movie magic and gain an understanding of video production, stop-motion animation and post production using iMovie. An introduction to the techniques of time-based art will allow students to create personalized studio movie projects.

Silkscreen Printing
Explore this printing technique by creating dynamic multiple sketches and drawings of ink based compositions. Experiment with color, texture and transparent/opaque inks.

Interior Design
Design, draft, and render interior spaces using architectural tools, equipment and methods. Basic layout design for display boards, material samples and an introduction to color is also covered.

Pop Art Painting
Use your imagination and creativity to reinterpret scenes and imagery from everyday life in an abstract painting style similar to Andy Warhol or Roy Lichtenstein.

Fashion Photography
Work in teams to develop a fashion story; assemble models, hair and makeup stylists; find shoot locations; and direct a photo shoot. Images will be edited for a final presentation.

Drawing: Scale & Proportion
Study scale and proportion by creating large drawings from small works and small drawings from large works. Masterpieces found at the Philadelphia Museum of Art will serve as inspiration for students to experiment and manipulate the scale of their own work in the studio.

Digital Drawing Board
Learn to create digital artwork through the use of Wacom tablets and Adobe Creative Suite software. Students will digitally sketch, draw and paint creating business cards, flyers, magazine covers and more ultimately learning art and design principles.
